DRÄGER · FIXED GAS DETECTION · SENSOR

ChemLogic sensor tapes

Series: ChemLogic

ChemLogic sensor tapes are gas-specific tapes for tape-based gas detection that work on the colourimetric principle. Separate tapes cover toxic gases such as ammonia, phosgene, hydrides, diisocyanates and mineral acids. They are used with ChemLogic tape machines.

01 Gas-specific sensor tapes for tape machines

02 Colourimetric measuring principle

03 Ammonia, phosgene, hydrides, diisocyanates and mineral acids

04 For use with ChemLogic tape machines

Technical data

BRAND	Dräger
MODEL	ChemLogic sensor tapes
GASES	NH3 · Other
SENSOR TECHNOLOGIES	Colorimetric tape
COMPATIBLE ITEMS	ChemLogic tape machines
