DRÄGER · FIXED GAS DETECTION · SENSOR

DrägerSensor IR

Series: DrägerSensor

DrägerSensor IR is an infrared sensor for fixed gas detectors. It is used to monitor flammable gases and vapours, methane and carbon dioxide. Its performance approval follows IEC 60079.

01 Sensor for fixed gas detectors

02 Infrared measuring principle

03 Flammable gases, methane and carbon dioxide

04 Performance approval to IEC 60079

Technical data

BRAND	Dräger
MODEL	DrägerSensor IR
GASES	Ex / LEL · CO2 · CH4
SENSOR TECHNOLOGIES	Infrared
OTHER APPROVALS	Performance approval (in accordance with IEC 60079)

Standards

STANDARD
IEC 60079
