PORTWEST · RESPIRATORY PROTECTION · FULL FACE MASK

Portwest P516 Helsinki Full Face Mask - Universal Thread

Product code: P516BLU · Series: Respiratory Protection

The Helsinki full face mask is made with a soft thermoplastic rubber face seal and features a panoramic viewer. The internal silicone face piece is equipped with two inhalation valves to reduce fogging and improve comfort. This mask features a standard DIN thread connection according to EN 148-1. It can be used with all filters supporting the same standard (gas, particles or combined and motorized equipment). Filters are not included (sold separately).

01 Class 3 thermoplastic full face mask with a soft silicone inner

02 Durable polycarbonate visor provides all round visibility

03 Adjustable 6 point quick release harness for a uniform face seal

04 Standard thread connection (DIN) according to EN 148-1 standard

05 Compatible with filters P906, P926, P946, P956, P976

06 Filters sold separately
